Summary

Software Engineer with **7+ years** of experience in frontend and backend development. Skilled in **Java, Spring, Angular, React**, with a strong focus on **Agile/Scrum** environments. Proven track record of delivering scalable, testable solutions, improving system performance, and reducing downtime.

Experienced in designing distributed systems with high availability for business-critical applications. Adept at collaborating with cross-functional teams and aligning technical solutions with business goals to drive measurable impact.

Core Skills

- **Languages:** Java, SQL, PL/SQL, JavaScript, TypeScript
- **Backend:** Spring Framework, Spring Boot, Hibernate, RESTful APIs, Java EE, Maven
- **Frontend:** Angular, React, RxJS, HTML5, CSS3, Bootstrap, JavaFX
- **Databases:** PostgreSQL, MySQL, Oracle Database, Oracle APEX, MSSQL
- **Testing & Tools:** JUnit, Mockito, Postman, Swagger, Jasper Reports, BI Publisher
- **DevOps & CI/CD:** Git, GitHub, GitHub Actions, Docker, Jenkins, Kafka, Redis, Ehcache, RabbitMQ, Glassfish
- **Security:** OAuth2, JWT
- **Methodologies & Tools:** Agile, Scrum, Jira, ClickUp, Notion, Balsamiq

Professional Experience

Icon Platforms — Senior Java Developer

Jun 2025 – Mai 2026 | Tunis, Tunisia

- Led the design and implementation of scalable, distributed microservices, reducing API response times by **25%** and ensuring high availability.
- Collaborated with cross-functional teams and stakeholders to deliver business-aligned, secure, and high-quality software, improving customer satisfaction by **15%**.
- Championed Agile practices, automating CI/CD pipelines and mentoring team members, accelerating delivery and reducing operational risks.
- Drove architectural decisions and code quality, resulting in faster feature delivery and lower costs.

Technologies: Spring Boot, Hibernate, React, PostgreSQL, Docker, Kafka, Redis, Ehcache

SBSA Solutions — Intermediate Full-Stack Software Engineer

Jul 2023 – May 2025 | Tunis, Tunisia

- Designed and developed applications using **Java, MySQL, Angular, React, JavaFX**, focusing on scalable and reliable solutions for business growth.
- Improved backend performance by **20%** through Spring features and optimized database interactions for high-volume environments.
- Collaborated with project managers and business analysts to clarify requirements and ensure alignment with business needs.
- Produced installation/configuration documentation, reducing onboarding time by **30%**.
- Decreased production incidents by **25%** via unit and integration testing.
- Business value: reduced integration time and incidents, improving team efficiency and customer satisfaction.
- Contributed to project management activities, including sprint planning and progress reporting.
- Supported architectural decisions and contributed to the design of scalable backend solutions.
- Participated in code reviews and knowledge sharing within the team.
- Ensured application security by implementing best practices (OAuth2, JWT, secure coding).
- Led project planning, estimation, and progress tracking in Agile/Scrum environments.

Technologies: Spring Framework, JavaFX, Hibernate, Ehcache, RabbitMQ, SQL, PL/SQL, JUnit, Mockito, Postman, Angular, React, Maven, Git

Muris Tunisia — Intermediate Full-Stack Software Engineer

Nov 2022 – Jun 2023 / Ariana, Tunisia

- Developed and maintained software components based on functional analysis specifications, ensuring reliability and scalability.
- Implemented backend services using **Java (Spring)** for distributed and high-availability systems.
- Optimized **PL/SQL** routines, improving query performance by **35%** and supporting business-critical reporting.
- Integrated Java services with Oracle databases and Oracle APEX.
- Reduced defect rates by **20%** through unit/integration testing.
- Worked closely with business stakeholders to gather requirements and deliver solutions that improved operational efficiency.

Technologies: Java, Spring Framework, PL/SQL, Oracle APEX, RESTful Web Services, BI Publisher, SQL, JavaScript, ClickUp, Git

SBSA Solutions — Junior Full-Stack Software Engineer

Mar 2018 – Oct 2022 / Tunis, Tunisia

- Developed Java/J2EE applications using **Spring** and **Hibernate** for enterprise-grade systems.
- Improved UI responsiveness by **20%** with **Angular, HTML5, CSS, JavaFX**.
- Ensured data integrity with SQL/PLSQL procedures and triggers.
- Reduced support requests by **15%** through documentation.
- Participated in cross-team meetings and contributed to project coordination and knowledge sharing.

Technologies: Spring, Glassfish, JavaFX, Angular, Jasper Reports, Maven, Jira, Git

Education

- Engineering Degree in Software Engineering, **ESPRIT**, Tunis (2012–2017)
- Bachelor's in Information & Communication Technologies, **FST**, Tunis (2008–2011)
